Sir:

As an over the road truck driver I use my XM radio to plan my trips, sometimes while I may still be 4 or 5 hundred miles from the city that I need information about. The National Association of Broadcasters petition 04-160 would in effect take away this service that I pay for. It sure looks like NAB is trying to limit XM Radio's first amendment rights!

If I wanted to stop & hook-up my laptop to get on the Internet, I could look at the Weather Channel's website, does that not offend NAB? Should you support a law that prohibits me from Internet access unless I'm at home?

As for HR 4026, I'd expect this from Gene Green, he is a Democrat, but Charles Pickering should be ashamed of himself! HR 4026, represents another attempt by the NAB to restrict satellite radio from offering traffic and weather and other valuable services to its listeners. Everyone should be opposed to HR 4026! (Unless supporters need the money that bad.)

Chuck Cason
